www.vectorizeimages.com

FAST VECTOR CONVERSION

We can vectorize any lower quality graphic using Adobe Illustrator, so you can use it in large size printed banners, posters, flyers etc. If you are satisfied with our work, you can receive your vectorized image in your choice of the most common vector formats (Ai, Eps, Pdf, Dwg, Svg). We can also clean up your illustration, delete backgrounds in photos and do some small changes, in order to provide you with perfectly digitalized vector images. Contact: vectorizedesign@gmail.com
